About Me

I am a tech enthusiast with a deep-rooted belief in the principles of humanity, complemented by strong technical and soft skills. Proficient in MERN development, I possess expertise in both frontend and backend technologies, enabling me to operate effectively as a full-stack developer. My passion lies in problem-solving and leveraging data structures and algorithms, where I excel from beginner to advanced levels. I actively engage in solving diverse DS questions across multiple platforms, continually expanding my knowledge and finding fulfillment in the learning process.

Professional Experience

Simplifii Labs Private Limited | Frontend developer Intern Nov 2023 - Dec 2023

Key responsibilities:

- Worked as Frontend Developer Intern
- Contributed on making new college website with responsive and user-friendly interfaces.
- I have experience working with a tech stack that includes HTML, CSS, JavaScript, and React.js, with deployment on GitHub.
- Developed strong professional, social, communication, and persuasive skills.

BLOGGER | Business and Lifestyle | grinpy.com Jan 2024- May 2024

- I have initiated my own personal blog website titled grinpy.com.
- Worked on WordPress CMS to generate Blogs.
- I utilized Google tools such as Analytics, Console, and AdSense etc
- learned SEO (On-page & off-page optimization) for posts

Projects (GitHub Links on Portfolio)

• MENTLINK- Mentor-Mentee Connect (MERN) (ONGOING)

GOAL- Designing and implementing a MERN-based responsive platform with AI-driven mentor-mentee matching, enabling personalized recommendations tailored to user goals and preferences. **Stacks-** React, tailwind, MongoDB, express, Nodejs

TARGET AUDIENCE- Targeting College, Industry and Collaboration between organizations, by developing robust application.

Integrated advanced features: Built dashboards for mentors and mentees, embedded secure video conferencing, real-time analytics, and scheduling tools for seamless interaction and progress tracking.

• Employee Management System (REACT+TAILWIND)

Dynamic Data Handling: Data is fetched and stored using **LocalStorage**, ensuring seamless interaction. **Separate Dashboards: Admin and Employee** dashboards with role-specific access via credentials (available in the README). **Admin Features:** Create and manage tasks for employees. **Employee Features:** View assigned tasks and update task statuses upon completion.

• Portfolio Website (VANILLA)

.Created a beautiful portfolio website! I designed and developed this website using vanilla HTML, CSS, and JavaScript. Clean layout with cool functionalities like theme and color customization, Responsive with **Custom Domain**.
